

# Russian Coal Market 2009-2010 - Brief Analysis

Report contains basic analysis for Russia's coalmining market; it provides valuable insights for Russian coal export shift from EU to Asia-Pacific, M&A activities in thermal coal that may lead to the second edition of "Coal Wars"; transportation infrastructure for coal export support is being analyzed - as well as new trends in Russia's coal consumption.

A report contains figures for 2009 coal production, export and demand in Russia.

*27 pages, 3 tables, 6 diagrams, and 1 map.*

**Price: USD 200**
