Business Group Profile

Ignatov & Company Group provides a wide variety of informational products referring business groups and conglomerates – from brief Business Group Profiles to multi-page Business Group Comprehensive Reports.

Business Group Profile covers the basic level of intelligence over the target group or conglomerate – such as brief description of its history and current activities; major stakeholders (companies and personalities); competitive positions in particular countries and markets.

Business Group Profile is usually used when you want to make a quick glance on some group's background and to understand if to move further to more comprehensive sources of data over that group.

Currently we have a large set of ready-for-delivery Business Group Profiles for several groups in Russia, Central & Eastern Europe, Central & Western Asia, Southern and Southeast Asia, Latin America and Africa. All of these Profiles may be easily ordered in our Emerging Markets Information Store in <http://www.emergingmarketsreports.com>

If you do not see any group in the list – contact us and we'll make a bespoke Profile for you.

If you need deeper and wider insight into any group's background and activities – such information may be easily found in our [Business Group Comprehensive Reports](#)

IGNATOV & COMPANY is a group of market researchers and consultants providing world-class service for international clients since 1998, with special emphasis on the transitive economies worldwide. We cover four of BRICS countries (Brazil, Russia, India, and SAR) as well as other emerging markets in the Former Soviet Union states, Central & Eastern Europe, Central Asia, Caucasus, Caspian region, Western Asia, South and Southeast Asia, Latin America and Africa.

Our well-trained team of consultants, researchers, and analysts has gained special knowledge and good experience in market research, company intelligence, benchmarking, business intelligence and analytics, news syndication and aggregation, business and engineering consulting, and foresight for various kinds of clients.

Initially established in Russia at September 1998 our company became a recognizable international player in less than 10 years. Currently our multinational team is presented in more than 40 locations worldwide covering 75+ countries in 4 continents.
